

SENATE TAKES UP GASOLINE QUESTION

Senator Kenyon Asks All Reports in the Matter From Attorney General.

The gasoline situation commanded the attention of the Senate when it met today.

Senator Kenyon introduced a resolution, which was unanimously adopted, requesting the Attorney General to send the Senate all reports of investigations of the oil interests of the United States, including Standard Oil and others. This is to include all reports relative to gasoline and oil, the dissolution of the Standard Oil Company and like matters.

This action was taken after Senator Kenyon had read a letter from R. L. Welch, general counsel of the Western Oil Jobbers' Association, with headquarters at Chicago. Mr. Welch declared the independent oil men, of which the association is composed, would be driven out of business unless the present discrimination of the Standard Oil subsidiaries was stopped.

The resolution, which was introduced by Mr. Kenyon, is to be taken up by the Senate tomorrow.

Mr. Welch said the Standard Oil subsidiaries were linked together by mutual stock ownership, and insisted the Sherman law ought to be repealed or legislation enacted to make it effective. Mr. Welch cited prices of oil in different parts of the country to show discrimination. He said it was 26 cents in New York, 18 in Chicago, and that the Standard Oil Company of Ohio charged 2 cents more than the Standard of Indiana, in adjoining territory.

Competition in the Middle West is dead if this is permitted to go on," said Mr. Welch.

In addition to his letter, Mr. Welch inclosed resolutions adopted by the independent oil jobbers at a recent meeting at St. Louis. These resolutions asked the dissolution of the Standard Oil Company as a failure, and that but for the decree Federal regulation would be possible. Federal incorporation, legislation, and enlargement of the powers of the trade commission were among remedies suggested.

The intention of Senator Kenyon is to use the information obtained from the Attorney General's office, if it is obtained, as a basis for further legislative action.

If it should be disclosed there is no law to meet the present evils, Senator Kenyon may ask for additional legislation.

EARNSHAW ESTATE LEFT TO FAMILY

Widow Given Absolute Ownership of Furniture.

Mrs. Earnshaw and her two children, John B. and Kate Irene are left the entire estate of Basil B. Earnshaw, whose death occurred last week.

The Earnshaws will be filed today in the office of the Register of Wills. The widow is given absolute ownership of all household effects and the two children are instructed to permit her to occupy the homestead at 222 Twelfth street southeast, or to rent another residence for her during her life.

The stipulation is made that if she desires an amount ranging from \$5,000 to \$10,000 shall be available from the estate to build a new residence for the widow.

The two children are named trustees and executors and are directed to furnish Mrs. Earnshaw with any sum up to \$1,500 a year for her maintenance. A similar sum is allowed the two children each year.

John B. Earnshaw is entitled by the will to continue the business conducted by his parent so long as it can be done at a profit.

FALL SAYS CARRANZA MEN NOT AIDING U. S.

Senator in Letter Also Calls Border Patrol Inadequate.

The declaration that Carranza troops are making no attempt to attack Villa is made in a letter from Senator Fall, of New Mexico, sent to Senator Gallagher, Republican leader, and made public today.

Senator Fall has been on the border investigating general conditions, at the request of none of the parties.

Senator Fall says the border patrol is inadequate, that an unguarded gap of nine miles made the Columbus raid possible, that on good authority it is said the American troops must have used the railroads or be withdrawn, and that Villa is not wounded.

Not Co-operating.

"The Mexicans," said the letter, "have made no attempt to attack Villa at all, and have not in any way been co-operating with our force or attempting to check Villa's retreat or to assist in his capture."

"On his retreat, Villa's first camp was within five miles of 700 Carranza soldiers, to whom Ramon Reyes reported, and whom he pleaded with to accompany him to attack Villa's 300 men. The Carranzistas refused."

Senator Fall described the Columbus raid, and said the citizens fought with the Mexicans fifty minutes before the troops appeared. He said stories of concentration of Carranza troops were exaggerated, though 3,000 Carranzistas could be thrown into action in five hours, and virtually all the Carranza troops in Chihuahua state were along the Mexican central, within one to ten hours of Juarez.

No Fear of Attack.

Senator Fall says, however, he has no fear of a Mexican attack, except through Indian tactics, or where the Mexicans are in overwhelming numbers.

In the Torreon, Parral, and Santa Fe districts, the latter two, Villa has many friends, and one of his leaders, Canuto Reyes, is said to have 1,500 men busy cutting communications and threatening the Torreon garrison.

THE WEATHER REPORT.

The forecast for the District of Columbia, Maryland, and Virginia—Fair tonight and Wednesday; warmer tonight. Moderate south and southwest winds.

WOULD WED MAN WHO STRUCK HER

O. VEGO, N. Y., April 11.—Thomas Hagadon almost killed his housekeeper, Violet Crane, yesterday because she sold a rooster for 75 cents.

Today Violet appealed to the police for her assailant's liberty that she might marry him.

She only had the 75 cents, however, and a license costs \$1, and city officials concluded that Hagadon was better off in jail.

Alarm Sent Out for Boy Missing Since Yesterday

A general alarm has been sent out by the police for David West, ten years old, missing from his home, 518 South Carolina avenue southeast, since 6 o'clock yesterday.

Young West left his home to play, and no trace of him has been found. Playmates and the neighbors have seen nothing of him since yesterday afternoon.

The boy is described as large for his age. He has light hair and blue eyes, and wore a light gray sweater with a blue serge suit, dark cap, and black shoes.

The two little Edmonston children, Richard, four, and Marie, two, who were reported missing from the home of Mr. and Mrs. S. Kemp Edmonston, 3461 Holmead place, from 10 o'clock yesterday morning until late in the afternoon, were found on the street by an acquaintance and brought home.

Wants Court to Call His Son Legally Dead

Alleging his son has been missing for eight years and eight months, Henry A. Green today appealed to the District Supreme Court to declare Samuel Green legally dead.

In the petition, filed by Attorney C. W. Tignor, the court is informed that efforts to communicate with Green have been futile, and that the decree sought is desired in order that a life insurance policy might be collected.

The petitioner declares that further payments of premiums on the policy are "wholly unjustifiable" because of the unsuccessful efforts to hear from the son or to communicate with him in any way.

Roosevelt to Ask for Delay in Barnes Appeal

SYRACUSE, N. Y., April 11.—Counsel for Colonel Roosevelt will make an application to Justice W. S. Andrews Thursday for an extension of time in the appeal of William Barnes from the adverse verdict returned in the famous libel suit.

Justice Andrews said he had been asked informally when his engagements would permit to receive such an application, and named Thursday.

Dandruff Soon Ruins The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, you must get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

U. S. TROOPS AIDED BY LAWTON'S SCOUT

Old Es-ki-ben-de Took Part in Pursuit of Geronimo in 1865.

COLUMBUS, N. M., April 11.—Possibly the most interesting of the Apache scouts with the American expedition in Mexico is old Es-ki-ben-de, the only Indian in the American army who has consented to give up his eagle feathers in the interest of discipline.

Es-ki-ben-de is serving his second enlistment, having aided in the pursuit of Geronimo under General Lawton in 1883. He re-enlisted in the scouts last April.

These Apache scouts are all men of from fifty to seventy-five years old, and they all know every inch of the territory that Villa's pursuers are covering.

The scouts wear the regulation army olive-drab, with the wide-brimmed Apache hat. With the exception of Es-ki-ben-de, all of them wear eagle feathers in their hair.

WILL BURN 90,000 EGGS HERE TODAY

Court Issues Order After Report From Department of Agriculture.

Ninety thousand eggs, unfit for human consumption, according to a decree issued by Justice Siddons today, are to be destroyed this afternoon by Deputy Callahan and aids of the office of United States Marshal Spain.

The impure food, with their containers of wooden cases and tin cans, will be burned.

The place of the contemplated incineration has not yet been decided upon by Deputy Callahan, but he expressed confidence at noon that he would find "somewhere in the District" to start the big blaze and carry out the order of the court.

The eggs were condemned by the court on the showing made by Assistant District Attorney Charles W. Airth on complaint of pure food experts of the Department of Agriculture.

The eggs were seized early this month in a stable in southwest Washington, where they had been placed for storage.

Rifle Range Open For Civil Clubs

Winthrop Ground Will Be Given Over to Officers on Monday.

Rifle practice for civilians in the District will commence on Monday at the range used by the Marine Corps at Winthrop, Md. The opening day will be given over to officers of the rifle clubs.

On the return trip from the range by steamer, the District Rifle Association will arrange plans for the season's work for all the clubs.

Saturdays in May have been reserved for the civilian clubs, each of which also will be given one day in April.

Lieut. E. Z. Stever will take a party of high school cadets to the range on April 15. The cadets' practice will extend over two weeks.

BURGLARS ACTIVE IN LAST 24 HOURS

Nearly Score of Small Robberies Reported to Police.

Nearly a score of small robberies have been reported to the police in the past twenty-four hours. Two houses were ransacked by persons who gained entrance with duplicate keys.

Joseph H. Hayden, of 2860 Twenty-eighth street, reported that his home was ransacked several days ago, but only \$5 in cash was missing.

The home of Clara Austin, at 589 Florida avenue, was entered in the same manner and \$5 in cash taken.

M. H. Howard reported his overcoat stolen from a downtown hotel. It contained valuable letters and his gloves, he stated to the police.

Pfan For Shad Bake.

Tickets for the twenty-second annual shad bake of the Washington Board of Trade, which is to be held at Chesapeake Beach, May 20, were placed on sale today by J. Harry Cunningham, secretary.

Already there have been several meetings of the committee on arrangements, of which Edward J. Murphy is chairman, and it is planned to make this year's shad bake the biggest event of the kind in the history of the organization. The committee on arrangements will hold its next meeting Saturday night at 7:30.

You can't "spell-bind" many men into liking what they dislike —every man's taste is his own

IF A MANUFACTURER in his advertising tells you (truthfully, as he believes) that he has the "best tasting cigarette in the world" and you believe him, you probably try his cigarette. It may be a very good cigarette. But his over-enthusiasm has led you to expect something almost impossible. You light that cigarette and—

Well, there's a good chance that you're disappointed. It may not be the fault of the cigarette. The cigarette may be mighty good. But you've been led to expect too much. You've been "over-sold."

And besides, tastes differ—who can tell what cigarette will best please your taste before you try it?

That's why we leave the taste of Fatimas entirely up to you. We believe you will like them; but you may not.

To be sure, most men like the taste of Fatimas better than any other cigarette they ever smoked. Figures indicate that. More

Fatimas are sold than any other cigarette in the world costing over 5c.

But the taste isn't all. If you do like Fatimas' taste as well as these thousands and thousands of other men do, you'll find a second reason for sticking to them for good. And that reason is that Fatimas will give you cigarette-comfort at all times. This is why they have won the name of being as SENSIBLE a cigarette as a man can find anywhere.

They are comfortable to the throat and tongue. You'll never experience any "sandpaper tickle" or "hotness" in the cool-smoking Turkish blend of Fatimas.

And Fatimas can be smoked more freely than any other cigarette we know of without leaving any mean after-feeling, as some less skillfully blended cigarettes do.

If you have never smoked Fatimas—you should try them.

Loggatt & Myers Tobacco Co.

FATIMA THE TURKISH BLEND A Sensible Cigarette 20 for 15c

TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to the smoker. But there are other qualities that you should look for in the cigarette that you are going to stick to for your steady smoke. Here are a couple of tests that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness, which means comfort to the throat and tongue. Light any cigarette. Draw in a cloud of smoke—a small, ordinary puff. Hold it in your mouth for a few seconds. Let it "soak" around against your tongue. If the cigarette contains a high grade of mild tobacco leaves, combined in just the right proportion, it will always feel COOL and smooth both to your throat and to your tongue.

On the other hand, if the proportions are not right and if the cigarette contains inferior grades of tobacco or hidden strands of rank, oily leaf, you will feel a burning sting at the tip of your tongue or "sandpaper" tickle in your throat.

Test number two—How do you feel after smoking all day?

If the tobacco in the cigarette includes a correct proportion of mild grades—and all of the various grades have been properly blended by age—and if they have been so blended as to bring out the best qualities and to neutralize any unpleasant qualities in each of the different types of tobacco, you will be able to smoke practically whenever you feel like it throughout the day without feeling any effect from it.

But with another cigarette in which the blend is less skillful, even though the tobacco is of the highest grade, you will find along towards the end of the day that you are likely to have that feeling of being "smoked too much."

Clip out these tests and try them on Fatima
